

## Landed Cost Tracking

SYSPRO's Landed Cost Tracking solution is designed to assist you in tracking imported goods, estimating arrival times and establishing the overall cost of imported goods.

### The Value of Landed Cost Tracking (LCT)

- ▶ Identify all cost elements associated with goods that are imported
- ▶ Monitor the progress of arrival dates of shipments
- ▶ Simplify the receipt of shipments by pre-costing the shipment before the goods arrive
- ▶ Compare actual invoice cost with estimated costs for all cost elements
- ▶ Select suppliers based on shipping routes and associated costs
- ▶ Achieve true landed cost for each product through accurate cost apportionment based on volume, value, quantity, etc.
- ▶ Receive traceable stock items through inspection with lot and/or serial numbers
- ▶ Take advantage of the Goods Received Note (GRN) system to trace element costs for accurate in voice matching
- ▶ Allow for different tariff codes

### Matching LCT to your business

- ▶ Define multiple alternate shipping routes for each stock item
- ▶ Combine multiple purchase orders into a single shipment
- ▶ Identify difference between landed costs and current inventory costs with the automatic cost roll-up feature
- ▶ Revise shipment quantities if different to the original purchase order
- ▶ Designate the currency rates for customs exchange calculations
- ▶ Define a bill of costs for each inventory item per route
- ▶ Expected arrival date automatically updated when shipping date is revised
- ▶ Ability to transfer landed cost price (merchandise and non-merchandise costs separately) to the inventory warehouse costs
- ▶ Register supplier invoices against the shipment | registration system
- ▶ Archive the shipment once all the actual costs have been accumulated

### Integration

- ▶ Integrates with the following modules:
  - ▶ Accounts Payable
  - ▶ Inventory (Essential)
  - ▶ Purchase Orders (Essential)
  - ▶ Audit trails and reporting
- ▶ Inventory journals produced when warehouse costs are updated
- ▶ Provide detailed shipment tracking report
- ▶ Sales Order Action Report cross references customer backorders with incoming shipments for improved customer service
- ▶ Retain shipments on file as required
